

REMARKS

Claims 3-11 are pending in this application. Claim 1 is amended herein.

Applicants wish to express their appreciation for the courtesies extended by the Examiner in conducting an interview with the undersigned and Mr. Foss on August 4, 2005. It was the Examiner's contention that the ranges of xylene solubles and halogen permissible in the claims are only those exemplified by the data points in the examples. While agreement was not reached at the interview regarding the scope of the claimed ranges permitted by the examples in the specification, applicants have now amended the claims herein to limit the claimed xylene solubles fraction to the range 0.4 wt percent - 0.6 wt percent, and the halogen content to the range of 7.8 ppm - 10.1 ppm. It is respectfully submitted that these ranges are within the scope of the disclosure.

Entry of this amendment and grant of an allowance are respectfully requested.

Respectfully submitted,

Adrian T. Calderone
